

Please change the Claims to read as follows:

PROPOSED CLAIMS:

1. An ice fishing display device for use with an ice fishing tip-up with a base assembly and a tip-up flag arm mounted to the base assembly comprising:

a reflective enclosure containing a light source and a tiltable switch such that said light source is electrically connected to said tiltable switch, and said reflective enclosure can be seen by others when shined upon with lights to verify position of said flag arm;

a power source detachably mounted to the base assembly, wherein said power source includes a detachable connection to said light source; and

an electrical connection to said light source, tiltable switch and power source wherein conductors have connection to said flag arm with removable fasteners along the length of said flag arm,

whereby, when a fish strikes, said tip-up arm is released from a lowered position and said tiltable switch electrically connects to said power source to said enclosure so that said light source illuminates to signal a user of a fish strike.

2. An ice fishing display device for use with an ice fishing tip-up with a base assembly and a tip-up flag arm mounted to the base assembly comprising:

a reflective enclosure containing a light source and tiltable switch such that said light source is electrically connected to said tiltable switch, and said reflective enclosure can be seen by others when shined upon with lights to verify position of said flag arm;

a power source; and
